DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 50-66 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hagiwara et al. US 6,878,766.

3. The rejection set forth under 35 USC 103 in the paper mailed 3/24/06 is deemed proper and is herein repeated. The additional rationale in support of the rejection set forth in the paper mailed 1/26/07 are incorporated herein as well.

4. Applicants newly amended claims have been fully considered. The new limitations are anticipated and/or obvious from the cited art.

5. Applicants have added the step of drying the article at 60 to 170°C. This is shown at column 8 lines 20-23.

6. The curing into a shape having the thickness of 0.05mm to 0.50mm is disclosed at column 9 lines 24-25. The tensile strength and elongation rate are shown at column 8 lines 45-50.

7. Applicants have failed to specifically argue the deficiencies in the rejection. As such no further rationale is deemed necessary.

Conclusion

8. This is a RCE of applicant's earlier Application No. 10/769,698. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
